

WI UNITED FC INDOOR PLAY ON PROTOCOLS

At the outset and throughout this process, please remember it is important that each participant and their families stay informed and make educated choices about when they are ready to participate. No one should feel pressured – or pressure others – into a decision.

Indoor Protective Measure Policies

1. Limit number of teams training in a space at one time.
2. All participants (coaches, players, instructors, etc.) are required to be masked always. Spectators when present, must also be masked. Masks should cover the nose and mouth, be breathable, consist of cotton or wick-type material and follow CDC guidelines.
3. Cones will be placed socially distanced for players to put gear when arriving and on water breaks.
4. Players will be asked to sanitize hands with their own sanitizer at water breaks.
5. Facilities access will be limited to essential personnel. Parents should drop off/pick up without entering the facility. **No spectators at training.**
6. Participants should wait in cars until their specific time to enter the facility or field.

Continue all Risk Reduction Practices Implemented for Outdoor Return to Play

1. Conduct individual screening before participation. Anyone exhibiting COVID-19 symptoms of any kind must refrain from participation for 10 days.
2. Social distancing should be observed; players in competition may be the exception.
3. Carpooling outside of a family unit is not recommended.
4. Players may only consume their own drinks. Bottles should be labeled with player names and participants should not touch anyone else's bottle.
5. Each team should police their station before exiting, making sure no personal items are left behind (tape, water bottles, masks, etc.)
6. Prior to, during and following a training or match there will be no handshakes, high fives, or other unnecessary contact.
7. Attendance will be tracked for players, coaches, and spectator attendance at each activity of the club. Check in is required for anyone entering the indoor facility during the club's scheduled time blocks.
8. Training and match scheduling that enables sufficient time for players, coaches, and spectators to leave an area, necessary sanitation to be performed and the next group to enter the space without overlap.
9. Defined entrance and egress for arrival and departure of players. Make room for teams exiting facilities when entering.
